THE UNDERWORLD WHITEPAPER

THE UNDERWORLD WHITEPAPER

1. The Manifesto: Bridging Two Empires

The GTA Token is a meme cryptocurrency specifically crafted for gamers and crypto degenerates who demand a seat at the table of a new digital ecosystem.

We are capitalizing on a massive untapped potential: the collision of the \$1.6 trillion cryptocurrency market and the \$184 billion video game industry.

THE UNDERWORLD WHITEPAPER

1.1 The Network: BINANCE SMART CHAIN (BSC)

We chose the **Binance Smart Chain (BSC)** as the foundation for our empire. BSC delivers the holy trinity of Web3 gaming: **lightning-fast** transaction speeds, incredibly **low gas fees**, and **massive global liquidity**.

By utilizing the **BEP-20 standard**, we guarantee seamless NFT integration and flawless, cost-effective execution of smart contracts for our tournament payouts.

LIGHTNING-FAST SPEEDS

Transactions in seconds, built for gamers.

ULTRA-LOW GAS FEES

Keep more in your wallet. Every trade counts.

MASSIVE GLOBAL LIQUIDITY

Deep liquidity means stronger growth.

BEP-20 STANDARD

Built for scale.

SEAMLESS NFT INTEGRATION

Powering the future of gaming assets.

SMART CONTRACTS FOR TOURNAMENTS

Secure. Transparent. Cost-effective payouts.

2. The Ecosystem

2.1 GTA Championships: Skill-to-Earn

Our tournament platform embodies the finest traditions of competitive gaming. We are abandoning the "Pay-to-Win" model. Here, participants compete for honor, recognition, and most importantly, real **cryptocurrency** rewards.

A stack of several golden GTA tokens.

Crypto Rewards
Every successful match, victory, or leaderboard climb is rewarded directly in **GTA tokens**.

A shield with a checkmark and a padlock, symbolizing security and transparency.

On-Chain Transparency
Results, player stats, and prize distributions are hardcoded into the blockchain, matting manipulation.

A sleek, futuristic racing car with checkered flags in the background.

Diverse Arenas
From fast-paced daily shootouts to long-lasting seasonal leagues across the world's most popular titles.

2.2 GTA NFT Market: The Vault

The NFT marketplace is a pivotal component of the GTA ecosystem. It is where participants collect, trade, and showcase their digital legacy.

Vice Alpha Collectibles

Starting with exclusive assets, crafted by our core team, evolving into a peer-to-peer marketplace for all gamers.

3. The Math of the Empire: Tokenomics

A project is only as strong as its treasury. The GTA Token features a strictly capped maximum supply of 10,000,000 tokens. Initial liquidity will be backed by USDT to safeguard our early holders against market manipulation.

Distribution Breakdown:

● **60% (6,000,000 GTA)**

Overall Liquidity: Locked and loaded to ensure smooth trading on DEX and CEX platforms.

● **20% (2,000,000 GTA)**

Infrastructure: Fueling the development of the GTA NFT Market and Championship servers, (subject to a 500-day vesting schedule).

● **10% (1,000,000 GTA)**

Marketing: War chest for influencer partnerships, global campaigns, and community airdrops.

● **10% (1,000,000 GTA)**

Overall Liquidity: Locked and loaded to ensure smooth trading on DEX and CEX platforms.

● **10% (1,000,000 GTA)**

Project Team: Core team compensation, heavily vested to align our success with the community's success.

4. The Master Plan: Roadmap

Phase 1: The Heist Begins (Q1 2026)

- Launch of the official **GTA Website** and **Alpha Intel Blog**.
- DEX Listing (PancakeSwap) and Initial **Liquidity Lock**.
- Smart Contract Deployment on BSC.

- Reach **4,000 holders** and hit a **\$100M Market Cap** target.

Phase 3: Domination

- Beta Launch of the **GTA Token Championships**.
- Vice Alpha **NFT Collection Minting**.
- Reach **10,000 holders** and hit a **\$100M Market Cap**.
- Launch of **Meme-farms** and staking rewards.

Phase 4: Global Empire (Q4 2026 & Beyond)

- Tier-1 CEX Listings.
- Full public launch of the **GTA NFT Marketplace**.
- Achieve **50,000+ holders** and strive for a **\$1 Billion Market Cap**.

5. Security & Disclaimer

Risk Warning:

The Web3 space is highly volatile. The price of the GTA token may fluctuate based on supply, demand, and market conditions.

Security:

While we utilize the robust **Binance Smart Chain**, users must acknowledge the inherent risks of blockchain technology and safeguard their own assets.
